ABOUT THE SESSION AND DR. FOX

Positive Behavior Support offers an evidence-based approach to intervening with challenging behavior with a focus on teaching new skills. This workshop will provide participants with information on how collaborative teams can use functional behavioral assessment to generate comprehensive and individualized behavior support plans. Case study activities will facilitate

practice of the collaborative teaming process and the development of behavior support plans. Topics addressed will include:

- functional assessment;
- hypothesis development;
- behavior support strategies;
- collaborative teaming; and
- measuring meaningful outcomes.

Lise Fox, Ph.D.
Research Professor, Louis de la Parte Florida Mental Health Institute, University of South Florida

Dr. Lise Fox is a research professor in the Department of Child and Family Studies of the University of South Florida in Tampa, Florida. Lise is a Co-Principal Investigator for the Department of Education (OSEP) funded Center for Evidence Based Practice: Young Children with Challenging Behavior (www.challengingbehavior.org) and a faculty member with the U.S. Department of Health and Human Service, Child Care and Head Start, funded Center on the Social and Emotional Foundations for Early Learning (<http://csefel.uiuc.edu>). In addition, she is involved in projects to conduct research on the efficacy of Positive Behavior Support with toddlers, and to develop training and technical assistance materials in the area of young children with challenging behavior.

Dr. Fox has been a classroom teacher for students with severe disabilities, teacher educator, program developer, and researcher. she has numerous publications in the area of positive behavior support, early intervention, autism, and developmentally appropriate practice. She currently serves as an Associate Editor for the *Journal of Early Intervention* and is a reviewer for several other prominent journals.

CONTINUING CEUS
